Downloading EVP RDP Files

You can download EVP Remote Desktop (RDP) connection files to use when connecting to EVP. Once downloaded, you can copy the RDP file from your downloads folder to an easily accessible location such as your desktop.

Log onto the RD Web using your EVP credentials:

https://gwe1.etailsolutions.com

Once logged on, you will see the EVP applications you have access to. Click on the EVP application and an RDP file will automatically download.

Double-clicking on this file will launch the EVP application.

When downloading a new RDP file, make sure to remove all previous RDP files.
