Launching EVP from Windows

EVP via WebUI

Open in web browser and log in using your EVP credentials.

https://start.etailsolutions.com

EVP via Remote Desktop Protocol (RDP)

Multi-Factor Authentication (for users with MFA logon enabled), must be setup prior to launching EVP via RDP.

⤨ https://etailsolutionsllc.atlassian.net/wiki/spaces/ETAIL/pages/2547679237

Open RDWeb

https://gwe1.etailsolutions.com

Enter your user credentials in the format of etail\<id>.<userid>

The next steps may vary slightly based on which browser you are using. Click on the EVP instance. In some browsers clicking on the instance name will launch EVP.

In other browsers, you will be prompted to open or save the file. You may do either. If you save the file, save it in a place where you can find it again, and double clicking the file will open EVP.

Opening cpub-Demo2_EVP-ELB-CmsRdsh.rdp

You have chosen to open:

cpub-Demo2_EVP-ELB-CmsRdsh.rdp

which is: Remote Desktop Connection

from: htttps://gwe2.etailsolutions.com

What should Firefox do with this file?

○ Open with   Remote Desktop Connection (default) ▼

○ Save File

☐ Do this automatically for files like this from now on.

OK   Cancel
