EtailSolutions

CBA-CT-FULC: 3PL/WMS Channel Model

| Etail Vantage Platform | Channel Based Architecture (CBA) | 3PL/WMS Channel (CBA-CT-FULC) |
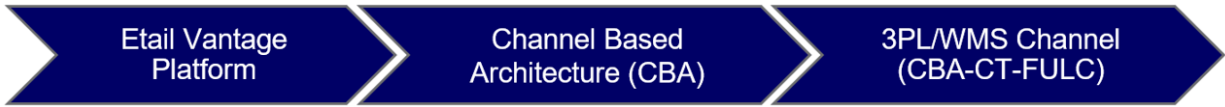

A 3PL/WMS Adaptor integrates with a subsystem responsible for tracking the bin-level location and quantity of inventory the client owns. It also handles the receipt against an inbound order and its shipment against an outbound order without creating a Purchase Order.

Host   3PL/WMS Channel

Host		3PL/WMS Channel
3PL/WMS Channel Record Created	SendItemMaster →	
Create Inventory Adjustment if Change in 3PL/WMS channel Qty	← ReceiveInventory	Full Inventory Snapshot (Daily/ Weekly/ Monthly)
